

MANAGEMENT RESPONSE

Regional office / cluster: Indonesia/PES

Title evaluation report: Mid Term Review Report for Indonesia 2017-2019

Date of the Management Response: 15 May 2020

Staff involved in the Management Response: Peni Agustijanto, Prima Interpares, Catur Utami Dewi

Cleared by: Chris Claes

Evaluation recommendation / point of attention 1	Rikolto ensures the availability of valid and reliable measurement tools for PES (Payment for Ecosystem Services)'s business model.			
Management response	Accepted Initial assessment documents have been prepared to conduct carbon measurement and biodiversity studies.			
Key action(s)	Time frame	Responsible	Tracking	
			Status	Comments
1.1 Facilitating biodiversity study in the National Park area & disseminating the study results through a workshop <i>Biodiversity Study was done in 2019, subsequently, dissemination of the study results will be conducted in 2020 by inviting private sectors to get an overview and provide inputs for the potential sustainable business without deforestation in the National Park areas</i>	2019-2020	PES Manager	Done – to be done	
1.2 Workshop: Formulating Environmental Standard for the National Park Areas <i>The output of this workshop is to define and arrange environmental standards for the National Park areas.</i>	2020-2021	PES Manager	To be done	

1.3 Training and Formulating Environmental Standard for Carbon Measurement with the third party (i.e., South Pole) <i>The output of the activity is a map and formulation of carbon stock calculation in the Kerinci Seblat National Park areas.</i>	2020	PES Manager	To be done	
1.4 Workshop: Compilation of the Success Story of PES Business Model <i>The output of this activity is a compilation of success stories of PES Business Model for learning purpose</i>	2021	PES Manager	To be done	
Evaluation recommendation / point of attention 2	We are preparing a strategy for institutionalising the Rikolto program into the village programme through facilitation. We are also actively involved in the village medium-term development plan so that ownership of environmental preservation can be transferred to the village, and villages can make intensive efforts on environmental issues through conservation in the KSNP area.			
Management response	Accepted There has been a collaboration between the Village Government and one of the PES partners, TAKTIK, to integrate the intercropping programme in the village programme			
Key action(s)	Time frame	Responsible	Tracking	
			Status	Comments
2.1 Training on online and offline media management to raise public awareness towards ecosystem protection and conservation <i>The output of this activity is a room/space for public to give their voice regarding environmental protection & conservation to the village governmental programme.</i>	2020-2021	PES Manager	To be done	
2.2 Workshop P3MD (Participatory Development Programme of Village Community) <i>The workshop aims to raise the awareness of the village community about the procedures and governance in delivering aspirations into the village forum.</i>	2020-2021	PES Manager	To be done	
2.3 Workshop in Institutionalizing PES topic/programme Village Development Plan Meeting (Musrembang) in Kerinci	2020-2021	PES Manager	To be done	

<p><i>The workshop will result in the established learning model of PES that is adopted by the village programme through the Musrembang.</i></p>				
<p>Evaluation recommendation / point of attention 3</p>	<p>Do more expose programs to the private sector so that it is expected that more private sectors will understand the context of PES so that it is integrated into the calculation of the private sector business.</p>			
<p>Management response</p>	<p>Accepted</p> <ul style="list-style-type: none"> ➤ The work has resulted in an initial agreement from the coffee private actor (Sucafina) to support conservation activities and from a cinnamon private actor (Tripper). The work will continue (see also key actions 1)
